Gymnastic Equipment

Floor Level Low Beam

Like our Practice Beam, the Low Beam is designed for basic instruction and due to its compact size is popular for home training use for the young gymnast.

The beam is 3.5m long and 100 mm wide with timber top covered in heavy duty canvas. Overall height of the beam is 135 mm.

Steelwork is powder coated in 'Gymleader' blue and fitted with non marking feet.

Ref: 080/004 Floor Level Low Beam - with canvas covered top

Practice Balance Beam

Designed primarily for Intermediate, Primary school and basic instruction at club level.

The beam is 3.5m long and 100 mm wide and is covered in heavy duty canvas. The height of the beam is adjustable from 600 to 900 mm in 50 mm increments.

The Beam support is zinc plated and the legs are powder coated in 'Gymleader' blue and fitted with non marking feet.

Ref: 080/003

Adjustable Practice Beam - with canvas covered top

Floor Level Practice Beam - Club Model

This model features a solid timber beam top of full 5 metre length and correct proportions.

The beam top is covered in heavy duty canvas and is supported on low level blocks.

Ref: 080/054 Floor Level Practice Beam - Club Model

Adjustable Practice Beam - Club Model

This beam features a solid timber beam top 5 metres long which is of the correct proportions. It is covered in heavy duty canvas and is supported on reverse adjustable legs allowing beam height to be set at either 400 mm or 600 mm.

Ref: 080/053

Adjustable Practice Beam - Club Model

Gymleader Olympic Style Aluminium Balance Beam

The Gymleader Olympic Style Aluminium Beam is a truly top performer.

The beam itself is manufactured from custom designed aluminium extrusions riveted together to produce a perfectly proportioned and accurate beam top. The legs are adjustable using a positive pin locator making it suitable for both novice and advanced gymnasts.

The top features foam padding which helps with comfort for the gymnast whilst not removing the feel. The beam is then upholstered in a heavy duty canvas fabric which is ideal right up to senior club level.

Imported European fabric as used at major international events is also available as an alternative to the canvas. Please enquire for more details.

Gymleader 3/4 Junior Beatboard

A lighter duty beatboard has often been requested but trials have shown that a full size board fitted with fewer springs can mean a less durable board especially if used by larger gymnasts.

The junior board is a development of the well proven full size Gymleader Beatboard.

It features the same type of steel frame and laminated and shaped timber top as the full size model, quite simply, made shorter and fitted with only two conical springs.

The top measures 600 mm wide and 900 mm long and is fully padded and upholstered. The base is fitted with non marking feet to prevent damage to the floor, and wheels are fitted making moving the board very easy.

The shorter size helps to deter larger gymnasts who prefer the full size board, however, the design and method and construction will still withstand an adult - they will just not get the rebound result they may like.

Ideally the Junior Beatboard suits children up to Intermediate age.

Ref: 080/005

Gymleader Junior Beatboard

Sportmat Liteboard - 3/4 Size

To meet the need for an entry level Beatboard which is both light weight and cost effective we have manufactured the Sportmat Liteboard.

The design was tested and finalised with the aid of a championship winning coach and the result is an excellent novice or junior grade Beatboard.

The board is 3/4 size and uses marine bonded ply wood for the top and a simple zinc plated steel frame with 3 springs.

The springs are the same as those used for the more competitive Sportmat recoil board, but their spacing and the design of the Liteboard gives it a nice easy bounce. The top of the Beatboard is fully padded and upholstered in heavy duty carpet.

The Liteboard ideal for the young novice gymnast up to Intermediate age.

Ref: 080/050

Sportmat Liteboard

Gymleader Heavy Duty Beatboards

3 Spring Beatboard

5 Spring Beatboard

The classic Gymleader Beatboard is made with a strong and durable steel frame complete with wheels for easy movement. The top is formed under pressure from a lamination of imported veneers.

Top measures 600 x 1200 mm and is fully padded and upholstered and the base frame is fitted with non marking feet and wheels for easy manoeuvring.

This Beatboard is available with either 3 or 5 springs.

Ref: 080/019 3 spring Beatboard

Ref: 080/020 5 spring Beatboard

Sportmat Recoil Beatboard

An elite beatboard with five springs for the serious competitor but with the ability to remove springs to transform the board for more primary users.

The Recoil board comes with a fully upholstered laminated timber top fitted to a strong steel base frame. It can be used with either 3 or 5 springs, making it the most versatile beatboard in New Zealand.

The base is also fitted with wheels to allow easy transfer to and from storage.

080/049 Sportmat Recoil Beatboard

System Reuther Beatboard

A traditional all wooden design of beatboard manufactured from laminated hardwood veneers to make a very strong beatboard.

This board features a fully padded and upholstered top. The legs feature non marking pads to prevent the board moving during use and prevent damage to the sports floor.

The all timber construction makes a strong but light beatboard which helps to make it a favourite with younger gymnasts.

Ref: 080/021

System Reuther Beatboard

Mushroom Pommel Trainer

Designed with the assistance of gymnasts the Mushroom Pommel Trainer is ideal for strength, co ordination and technique improvement for those specialising in pommel horse routines.

The top is 600 mm in diameter and is padded and covered in heavy duty canvas. Overall height is 650 mm.

The sturdy steel base is powder coated and fitted with adjustable feet to allow stable positioning of the unit on uneven floors.

Ref: 080/008

Mushroom Pommel Trainer

Box Horse - Soft Foam

Foam Vaulting Blocks

This Three section box horse is manufactured from urethane foam and covered in heavy duty PVC. Each section is 300 mm high and the sections join with hook and loop style fasteners. The standard colour is blue but multicoloured is an option.

The standard foam box is supplied in 3 layers
Layer 1 is the bottom, layer 2 is the middle and layer 3 is the top section

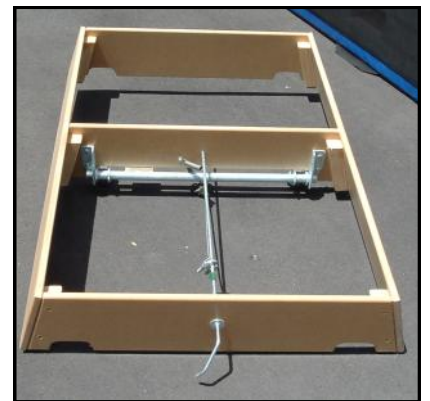

An optional 4th section is available which is in three pieces and fits on top of section number 3. This can be used to give the box additional height or to aid the novice vaulter by removing the centre piece.

160/010 Standard 3 Section Foam Box Horse

160/019 Additional 3 Piece Vaulting Blocks Set for Foam Box Horse

Vaulting Box Horse

Showing Transporter

New Zealand's finest Box Horse, constructed from medium density fibreboard for consistency of construction. The horse is in five sections to cater for wide age group level and the top is fully padded and upholstered in either durable vinyl or genuine leather. All timberwork is finished in two coats of clear finish and the box is fitted with non marking feet.

Box Horses can be fitted with a spring operated transporter mechanism to the bottom section. To operate, lift one end of the horse and the non marking wheels flip into position for ease of movement to storage. Although this feature is an option - it is highly recommended for ease of use.

	080/024	Box Horse Vinyl Top with Transporter (pictured)
	080/023	Box Horse Leather Top
	080/025	Box Horse Leather Top with Transporter

Vaulting Box Horse Premium Model

A 5 section Box Horse similar in design to 080/022 but manufactured from premium grade marine bonded plywood.

The horse is in five sections to cater for wide age group level and the top is fully padded and upholstered in either durable vinyl or genuine leather. All timberwork is finished in two coats of clear finish and the box is fitted with non marking feet.

All premium model Box Horses are fitted with a transporter mechanism.

	080/058	Box Horse Leather Top with Transporter

Pommel & Vaulting Horse Quad Leg

Traditional style Pommel Horse featuring removable moulded pommel handles to convert to an excellent long vault horse.

The horse is supported on four tubular legs providing excellent stability at maximum height adjustment. A chain and rigging screw is provided to anchor the horse to a floor plate if required.

The horse is fully padded and upholstered in heavy duty hard wearing canvas.

Ref: 080/039

Pommel & Vaulting Horse - Quad Leg

Pommel / Vaulting Horse - Duo Leg

A traditional style vaulting horse with fully padded and upholstered canvas top. The vault can be ordered with or without pommel handles and if fitted they are removable.

The vault is mounted on Parallel feet with supports which are height adjustable with the aid of a plunger system. A secondary safety lock is also provided.

A chain, rigging screw and floorplate is provided to anchor the vault to the floor and a transporter is also provided to make moving the vault easy.

Ref: 080/042

Pommel/Vaulting Horse - Duo Leg

Junior Horizontal Bar

This freestanding junior training bar is ideal for basic horizontal bar tuition and strengthening exercises for the lighter weight users.

No floor plates are required and the unit can be used indoors or out.

Positive pin locking system allows easy height adjustment at 600mm, 900mm 1200mm and 1850mm and the bar is 1200 mm wide.

The bar and support posts are zinc plate finish and fitted with large non marking feet.

The Bar is easily removed to help with storage or transportation.

Ref: 080/059 Junior Horizontal Bar

Optional extras also available:

160/010 Junior Rings
160/009 Junior Rope Ladder

Portable Mini Horizontal Bar

This freestanding training bar is ideal for basic horizontal bar tuition and strengthening exercises. No floor plates are required and the unit can be used indoors or out.

Positive pin locking system allows easy height adjustment from 1400 mm to 2000 mm and the bar is 1200 mm wide.

The bar and support posts are bright zinc plated with the frames powder coated and fitted with large non marking feet.

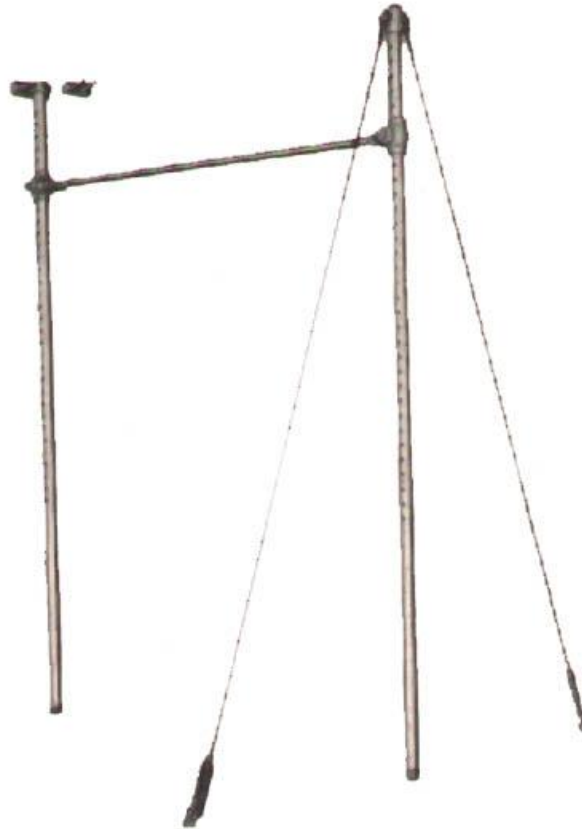

The Bar is easily removed to help with storage or transportation.

Ref: 080/013

Portable Mini Horizontal bar

Wall Mounted Horizontal Bar

A regulation sized horizontal bar which has one upright attached to a wall.

This system is recommended for tuition in a class situation where the equipment setup and set down must be both quick and straight forward.

Guy ropes are included as well all brackets and floor plates.

Installation instructions are provided, however due to differing situations, fitting hardware is not included.

Ref: 080/012

Wall Mounted Horizontal Bar

Horizontal Bar

A height adjustable High Bar very easily changed from 1700mm to 2650mm in 50mm increments.

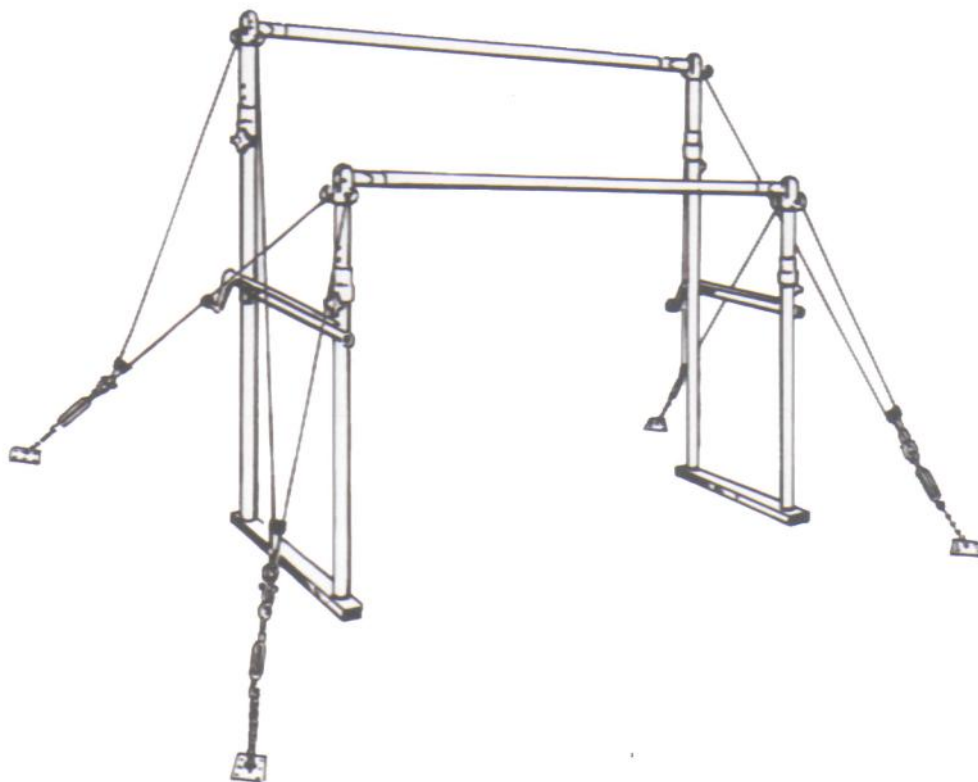

Four floorplates are supplied which need to be fitted into the floor. The tension wires then attach to these points

This unit features a high tensile steel bar as standard. A stainless steel bar or a fibreglass bar are optional. Tension wires and fittings are included

Ref: 080/011 Horizontal Bar with steel bar

Sportmat Traditional Uneven Bars

These bars are a complete system supplied with all tension wires and floorplates. They are easily erected and are fully adjustable with fast thread winders.

The bars are custom manufactured fibreglass rails laminated with timber veneer. Each rail is fitted with aluminium castings.

Installation of the four floorplates is required.

Dimensions:

High Bar - 2.1 metres high to 2.7 metres high
Low Bar - 1.5 metres high to 2 metres high
Bar Separation - 500 mm to 1.8 metres
Bar Width - 2.4 metres

Ref: 080/015 Traditional Uneven Bars

Gymleader Parallel Bar System

For convenience and heavy duty performance, the Gymleader Parallel Bar is in a class by itself. Easy height and width adjustments with exclusive 'Adjustalok' adjustment. All steelwork is treated in either durable powder coat finish or is electro zinc plated.

Permawood rails provide optimum resistance for championship performance. Non marking feet provide protection for the floor and each unit is provided with an easy to use transporter.

Ref: 080/014

Traditional Parallel Bars

Uneven Parallel Bar Combination

Utilising the widely proven Gymleader Parallel Bar design, the Combination Bars takes it one stage further.

One rail features supports that are longer than standard, this creating the uneven rail level. Additional stays are also supplied to support the high rail when it is used at its higher levels.

This unit makes the ideal learning station for the more traditional Freestanding Uneven Bars and has the added advantage that with the high bar at its lower level the lower bar can be lifted to match and the system used in the conventional Parallel Bar manner.

Ref: 080/041

Gymleader Uneven / Parallel Bar Combination

Gymleader Folding Trampolines

Picture showing polypropylene bed

- Two models available - Goliath and Regulation
- Frame constructed from rectangular hollow section steel with 3 mm wall thickness
- Expertly welded and assembled
- Steelwork is powder coated Gymleader blue
- Set height of trampoline is adjustable
- Non marking feet to protect gymnasium floor surface
- Easy fold design
- Supplied with two roller stands to assist with storage
- Choice of polypropylene mat or 2 string bed
- **Full safety padding is standard and now completely covers frame top.**

Approx open frame sizes

Goliath 5150 x 3110 mm

Regulation 4580 x 2740 mm

Regulation with polypropylene mat

Gymleader Double Mini Tramp

This trampoline follows the traditional Double Mini design with no end frames.

Constructed from powder coated heavy duty steel to give years of trouble free service.

The bed is of the Gymleader '2 - string' type.

Safety pads are standard and the trampoline folds for easy storage using the roller stands supplied.

Sizes and markings meet current regulations.

Ref: 230/450

Gymleader Double Mini Trampoline

Gymleader Mini Tramp

This square shaped Mini tramp is the modern springboard for school and club programmes and has been well proven throughout the country

The frame is made from strong RHS steel and measures 1100 x 1100 mm. 24 galvanised wire trampoline springs support the heavy duty polypropylene bed which measures 470 x 470 mm.

The large frame padding is provided as are the non marking feet. The Mini Tramp frame is powder coated for durability and the legs are in zinc plated finish.

Ref: 230/505

Gymleader Mini Tramp

Gymleader Rebounder

A rebounder is still an excellent addition to a sports conditioning programme, easily used by most people.

The frame is made from strong RHS steel and measures 1100 x 1100 mm. 32 galvanised wire trampoline springs support the heavy duty polypropylene bed which measures 600 x 600 mm.

The large frame padding is provided along with non marking feet. The Rebounder frame is powder coated for durability and the legs are in zinc plated finish.

Ref: 230/555

Gymleader Rebounder

Gymleader Wall Bars

Constructed from quality timbers and featuring oval Hard Wood rails, Gymleader wall bars have been installed in gymnasiums for over 30 years.

Available as double or single units.

Special widths can normally be accommodated, please enquire for details.

Chin up bars are available that simply hook on to the wall bar and provides an extra dimension to the utilisation of this equipment.

Ref: 080/035

Chin Up Bar - Wide Grip 1200 mm Wide

2 Section Combar Unit

Open ready for use

Closed for storage

The Combar is a versatile piece of equipment for any Gymnasium.

Wooden frames are manufactured from Pine 'Clears' and Hard Wood is used for all of the rails. The system features a steel support structure which allows the frames to be swung out from the wall in a gate fashion, where they are locked into place.

The adjustable height Horizontal Bar can then be fitted across the front of the unit.

When used in conjunction with other gym equipment, the Combar frame offers a great variety of teaching options.

Ref: 080/029 2 Section Combar Unit

Also available in a 4 section unit

Retractable Rope System - 6 metre ropes

Used in most school and recreation centres throughout New Zealand, the retractable rope system is well proven and reliable.

With no two venues being the same, each rope set is manufactured to order.

The standard system comes complete with all runners, pulleys, hangers and 6 climbing ropes ready to mount onto a suitable steel beam in the roof structure. We do not supply the steel beam but are quite happy to assist with the system design.

Rope ladders are available which can either substitute two ropes or be added to the 6 ropes provided the support beam is long enough. Please call to discuss your requirements or to request the installation requirements check sheet.

Ref: 080/032 Retractable Rope system (6 Ropes)

Gymnastic Ring System

The Gymleader retractable ring system can be found in gymnasiums, recreation centres and schools right throughout New Zealand.

The system is ideal for a class situation where rings must be quickly altered for height or must retract to clear other sports.

The wooden rings are laminated from native hardwood and then finished to International sizing on a computer controlled machine. They are fitted with heavy duty webbing straps and marine grade stainless steel swivels.

Flexible galvanised wire cable running through custom manufactured pulleys ensure years of trouble free service. Wall chain and wall chain lock are included for security to prevent unauthorised use.

As all Gymleader Ring Systems are custom manufactured, please enquire further for a site specification sheet which once completed gives all the information required for manufacture.

Ref: 080/007 Gymleader Retractable Ring System
Includes Rings, straps and Swivels

Ref: 080/037 Gymleader Rings, strap and swivels only

Swedish Bench 3.5 m Long

A 3.5m wooden Swedish bench of the traditional design.

We manufacture these with strong steel legs for improved durability and large rubber feet prevent floor damage. Buffers on the bench top help protect both the top and the floor when the bench is used upside down for beam exercises.

A wooden block is fixed to the underside of the bench top at each end. This allows the bench to be used in conjunction with Wall bars and Combar frames.

Ref: 080/026

Swedish Bench - 3.5 m Long

Spotting Block

1000 x 750 x 500 mm polystyrene block covered in Heavy Duty PVC.

Available in different colours.

Please enquire for more details.

080/056 Spotting Block

Jogging Board

This 800 x 600 mm board is fully padded and carpet upholstered and features resilient foam rubber shock absorbing pads on its underside, ideal for jogging training or skipping without the harsh pounding on the leg joints.

It is ideal as a stand alone piece of equipment or as part of a circuit with other exercise stations.

Ref: 080/055 Jogging Board

Gymnastic Chalk

Traditional Gym Chalk which for convenience is packaged in 2.5 kg lots.

Alternatively it is available in 25 kg bulk packs at a very competitive price

Ref: 080/900 Gym Chalk - 2.5 kg box

080/ 901 Gym Chalk - Bulk 25 kg
