## Regulation Hockey Goals

These goals are regulation size and are manufactured to be extremely durable and are ideal for schools and sports clubs.

They feature a full steel frame with welded end frames but with detachable cross bars to help minimise freight.

All steel work is hot dip galvanised for maximum corrosion protection and the front crossbar and posts are powdercoated white.

Full base boards made from 18mm Marine Bonded Plywood are attached to the steel frame work.

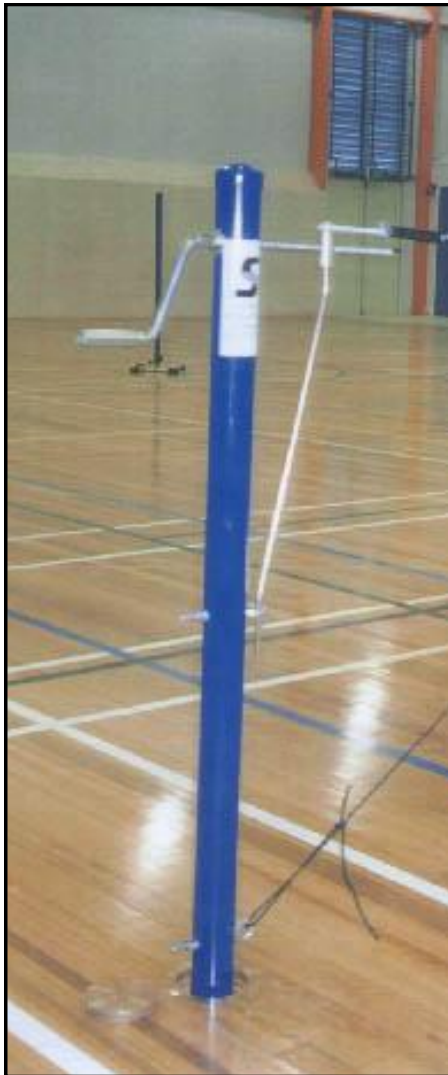

Wheels fitted at the back of the goal allow them to be moved by simply lifting the front of the goal and rolling. A net and attachment ties is included.

Some simple assembly is required and instruction guidelines are included.

## Sportmat Indoor Tennis System

Designed to be used with Floor Sockets, this tennis post is manufactured from heavy duty steel with Blue Powder Coat finish and the system includes a fast action winder on one post and a net attachment hook on the other.

The winch has recently been redesigned so that the handle is lower profile and removable.

Indoor Tennis Posts - pair (excluding net)

## Gymleader Indoor Tennis Posts

These compact posts can be set up in minutes by one person. Each post has a wide 3 legged base for greater stability. One post is equipped with a ratchet winch for net tensioning.

Net cable operates over pulley on top of post, through a pulley attached to a floor plate and back to the winch.

Posts are finished in durable powder coating and are fitted with large non marking feet.

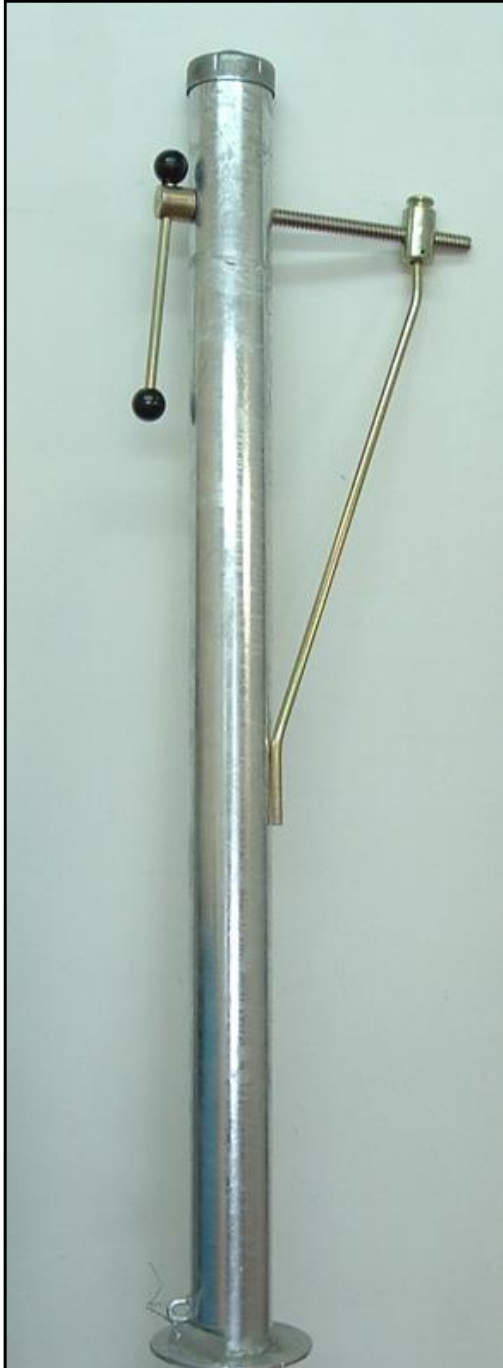

System requires two floor plates to be installed.  
Floor plates and net are available separately.

## Outdoor Galvanised Tennis Posts

Designed to be used with ground sockets set into the court, these posts are manufactured from galvanised 65 NB pipe.

One post features a net attachment hook and the other a fast action winder.

(Excludes Net)

## Outdoor Tennis Posts Powder Coated RHS

Manufactured from 75mm Square Steel which after fabrication is Electro-galvanise coated for corrosion protection and then fully powder coated black.

One post houses an internal fast action winder with a removable handle and the second post features an internal attachment point for the net cable.

Excludes Net and Ground Sockets.

## Gymleader Mobile Tennis Frame Powder Coated Frame

The Mobile Tennis Net Frame is designed to help achieve maximum use of an outdoor synthetic tennis court area by allowing a tensioned tennis net to be moved on and off the court making way for others sports such as Hockey and Netball.

The frames are manufactured from zinc coated RHS steel which is then powder coated black. The net required is a  $\frac{3}{4}$  drop x 40 foot length and this is fitted and left on the frame after tensioning with the internal winder.

The frame is supported on 6 quality swiveling castors, two of which feature a lock to hold the frame in position. Release the wheel locks and the frame can be easily moved by two people.

              180/128           Premium Tennis Net 40'  $\frac{3}{4}$  Drop - Shown on top picture

N.B.           For some severe environments such as coastal areas, we recommend that the stand be manufactured and supplied in a Hot Dip Galvanised finish for long term durability. Please enquire for further details.

N.B.           For use on Asphalt surfaces please discuss the requirements with us as the standard wheels will mark the court surface.

## Gymleader Mobile Tennis Frame Galvanised Frame

The Mobile Tennis Net Frame is designed to help achieve maximum use of an outdoor synthetic tennis court area by allowing a tensioned tennis net to be moved on and off the court making way for others sports such as Hockey and Netball.

The frames are manufactured from RHS steel which is then hot dip galvanised. The net required is a 3/4 drop x 40 foot length and this is fitted and left on the frame after tensioning with the internal winder.

The frame is supported on 6 quality swiveling castors, two of which feature a lock to hold the frame in position. Release the wheel locks and the frame can be easily moved by two people.

N.B.           For use on Asphalt surfaces please discuss the requirements with us as the standard wheels will mark the court surface.

## Tennis Umpire Stand

Picture taken in factory prior to despatch. Shown with optional custom shade cover.

Developed after requests from Tennis Players and Coaches wanting a comfortable, stable Umpire Stand that would actually last !

Our stand is manufactured from steel pipe (not thin wall tube) and all of the joints are fully welded. The frame is fully hot dipped galvanised for maximum corrosion protection and wheels are fitted to the rear, so to move the stand simply 'tip and roll'.

A comfortable moulded one piece plastic seat is included and there is provision for fitting a shade umbrella or alternatively custom made shade canopies can be included at extra cost.

Tennis Umpire Stand

## Tennis Court Sweeper

New Zealand manufactured to suit New Zealand conditions.

Key features include.

- Rigid frame for maximum durability.
- All metalwork electro zinc plated for corrosion protection.
- Tough 'closed cell' foam blade for maximum sweep without damage to the court.
- Non-marking urethane wheels.
- Easy to use.
- No awkward assembly required - just slot the handle into place then fit and tighten two bolts.
