## Gymleader Double Mini Tramp

This trampoline follows the traditional Double Mini design with no end frames.

Constructed from powder coated heavy duty steel to give years of trouble free service.

The bed is of the Gymleader '2 - string' type.

Safety pads are standard and the trampoline folds for easy storage using the roller stands supplied.

Sizes and markings meet current regulations.

## Gymleader Mini Tramp

This square shaped Mini tramp is the modern springboard for school and club programmes and has been well proven throughout the country

The frame is made from strong RHS steel and measures 1100 x 1100 mm. 24 galvanised wire trampoline springs support the heavy duty polypropylene bed which measures 470 x 470 mm.

The large frame padding is provided as are the non marking feet. The Mini Tramp frame is powder coated for durability and the legs are in zinc plated finish.

## Gymleader Rebounder

A rebounder is still an excellent addition to a sports conditioning programme, easily used by most people.

The frame is made from strong RHS steel and measures 1100 x 1100 mm. 32 galvanised wire trampoline springs support the heavy duty polypropylene bed which measures 600 x 600 mm.

The large frame padding is provided along with non marking feet. The Rebounder frame is powder coated for durability and the legs are in zinc plated finish.

## Romper Pre School Trampoline

Designed specifically for the day to day rigours of use at pre schools and kindergartens.

The frame is made from heavy duty RHS Steel in four sections and galvanised for corrosion protection. Four legs are used with one at each corner for greatest stability. The bottom of the leg is flattened off to prevent damage to floors when used at indoor facilities.

44 galvanised wire springs support the heavy duty polypropylene trampoline mat and full safety pads are included. The trampoline sits 530 mm off the ground and is ideally recommended for children up to 7 years of age.

Frame size: 2.5m x 1.82m      Mat size: 2.03m x 1.24m

## Gymleader Trampolines

Gymleader is New Zealand's original Trampoline Manufacturer with over thirty-five year's experience offering many different models to choose from. The most popular sizes for home use are detailed below and are made from the same materials as models supplied to Schools and Recreation Centres.

The frame is made from heavy duty RHS Steel in four section with a leg across each corner for stability. The mat is a heavy duty polypropylene fabric supported by galvanised wire springs. The safety pads are covered in heavy duty UV resistant PVC fabric and held in place by hook and loop fasteners.

### NEW FEATURES:

#### **NEW** - Safety Pad Design

- All Gymleader fixed frame trampolines now include the extra corner springs and full cover safety pads as required for all of our export trampolines to meet European safety standards.

#### **NEW** - Safety Pad Foam

- Gymleader fixed frame trampolines now feature closed cell foam in the safety pads. Gone are the problems of water logged safety pads.

#### **NEW** - Better Corrosion Protection

- All Gymleader fixed frame trampolines feature frames which have been fully hot dipped galvanised - the ultimate protection and backed by a warranty from CSP Galvanisers.
